

TENTATIVE PROGRAM

SUMMER NEUROPEPTIDE CONFERENCE

August 18 - 21, 1991
Cape Cod, Massachusetts

SYMPOSIA

*Modern Microscopical Imaging Methods for the Study
of Neuropeptide Gene Expression*
Julia Polak, London, England

Recent Advances in Neuropeptide Catabolism
Abel Lajtha, New York, New York

Neuropeptides and Growth Factors
Lydia Villa-Komaroff, Boston, Massachusetts

Neurotensin/Neurotensin-Dopamine Interactions
Susan Leeman, Worcester
Duff Davis, Ann Arbor, Michigan

*Functional Role of Amine-Peptide Interaction: Emphasis on
Cholecystokinin and Dopamine*
Linda Schneider and Randall Murphy
New York, New York

Neuroendocrinimmunology
Daniel Carr, Birmingham, Alabama

Peptide T, a Non-toxic Therapy for AIDS
Candace Pert and Michael Ruff
Germantown, Maryland

Neuropeptides in Lung Function and Disease/ Bombesin Antagonists
Sami Said, Chicago, Illinois
John Taylor, Hopkinton, Massachusetts

**POSTER PRESENTATIONS ARE WELCOMED
FROM CONFERENCE PARTICIPANTS**

SUMMER NEUROPEPTIDE CONFERENCE

August 18 - 21, 1991
Cape Cod, Massachusetts

WORKSHOP

How Functionally Important are Endogenous Neuropeptides?

GENERAL TOPICS AND SPEAKERS

*Introduction. Which came first, the peptide or the
"classical" neurotransmitter?*

Jacqueline Crawley, NIMH

Are peptides released under physiological conditions?

Andrew L. Bean, Yale University

Might peptides function primarily as growth factors during development?

Fleur L. Strand, New York University

Do peptide receptor antagonists produce behavioral effects?

George F. Koob, Scripps Clinic and Research Foundation
